GRAND JURY WILL INDICT GAMBLERS IN BALL SCANDAL

TRUE BILLS AGAINST THREE EXPECTED TODAY—ARE NOT IN CHICAGO

(United Press)
Chicago, Sept. 29.—Three gamblers will be indicted today on charges of conspiracy in connection with the "fixed" 1919 world's series games by the Cook county grand jury which yesterday indicted eight members of the White Sox baseball club.

This information was made public before the grand jury went into session by Assistant States Attorney Hartly Replegle, in charge of the investigation into the baseball scandal.

None of the gamblers are in Chicago, Replegle said. He refused to disclose their names.

Replegle also stated three other baseball players, none of whom are would also be indicted.

No umpires are under investigation, connected with the White Sox club, he said.

Joseph Heydler, president of the National League, who was to testify before the grand jury today, said he would present evidence that an entire different clique of gamblers than those alleged to have conspired with the eight White Sox players, were operating in the National League.

Heydler said the clique operating with the National League players had not paid a fixed sum to the players for "throwing game," but gave the crooked players one-third of their winnings.

Comiskey Can't Accept Proposition of N. Y. Yankees.

Chicago, Sept. 29.—Chas. A. Comiskey, owner of the White Sox, today said he did not see how he could accept the proposition made by owners of the New York Yankees in which they offered to lend Comiskey their entire team if needed to finish the season in place of the battered White Sox organization.

"It is a splendid opportunity, and one I appreciate from the bottom of my heart," Comiskey said. "However, I cannot accept it. The league rules forbid such action in this stage of the game."

"Kid" Gleason, manager of the White Sox, was enthusiastic about the team which he still wants Comiskey to put into the field. The White Sox remnant will go against St. Louis in three games beginning tomorrow.

White Sox Honest This Year.

Chicago, Sept. 29.—The White Sox played honest baseball this year, Joe Jackson, one of the squawkers, told the United Press today.

"We did everything we could to win the pennant," he said. "As far as I know none of the men had anything to do with gamblers this year."

Others Offer to Confess

Chicago, Sept. 29.—Other offers of confession of conspiracy to corrupt the 1919 world's series games have been made. Attorney Alfred Austrian, representing Chas. Comiskey, announced today. He refused to give the names of the men who made the offer or whether or not they were among the eight.

Investigate Reports to Bribe Brooklyn Team

New York, Sept. 29.—District Attorney Harry E. Lewis announced that he will start immediate investigation into reports that gambling cliques plan to bribe players of the Brooklyn team to lose the world's series.

Debut Ordered to Appear Before Jury.

Chicago, Sept. 29.—Jean Debut, former pitcher for the New York Nationals, now with the Toledo American association team, was ordered to appear before the Cook county grand jury investigating the baseball scandal, on Oct. 4, in a wire to the state attorney's office today. Debut may know something of gambling in the National League, officials believed.

Cicotte Goes Home.

Chicago, Sept. 29.—Eddie Cicotte, the first of the White Sox to squawk regarding the conspiracy to "throw" the 1919 world's series, hurriedly left Chicago today, and it was reported that he went to his farm near Detroit.

COX SPEAKS IN MISSOURI

SAYS HARDING HAS PROPOSED NO SUBSTITUTE FOR THE LEAGUE OF NATIONS

HERBERT WALKER
(United Press Staff Correspondent)

Enroute With Governor Cox, St. Joseph, Mo., Sept. 29.—Senator Harding has presented no substitute for the league of nations because his only alternative is a return to the international normal conditions of 1914 with autocracy, monarchy, sudden ultimatums, secret diplomacies and burdensome armaments, Cox said today in his first speech in Missouri.

Again attacking Harding's statement that he had nothing constructive in character to offer regarding a new association of nations, Cox declared that the republican candidate would not dare suggest to mothers of America return to pre-war international relations.

"The reason Harding has no substitute for the league is because everything else has been tried and failed."

"Spirits of ten million men who fought and died, many millions who must hobble through life on crutches or with pinned up sleeves, the thousands who are sightless, and the widows and children who have been starved and made homeless, all they have not dreamed of statesmen who in this critical hour have nothing better to suggest than to go back and do it all over again."

"We must choose either to retrace our steps over the broad road of international anarchy which leads only to destruction, or we must change our ways and travel along the straight and narrow path to an international peace controlled by moral might by civil nations of the world."

fession by White Sox players indicted for alleged "throwing" of the 1919 world's series to Cincinnati, was announced by the authorities today.

"Lefty" Williams, pitcher, told of his part in the alleged conspiracy, Assistant State's Attorney Replegle, in charge of the investigation, announced.

Williams was named by Joe Jackson as the man who gave him his five thousand dollars.

Williams named all of the gamblers who were involved in the deal, Replegle said.

Gambler Indicted

Chicago, Sept. 29.—The first indictment against gamblers alleged to have been connected with the conspiracy to "throw" the 1919 world's series to Cincinnati, were returned by the Cook county grand jury today.

"Sport" Sullivan of Boston, and a man by the name of Brown, were named as "fixers" by Claude Williams, the third of the indicted players to confess and charged with conspiracy to do an illegal act.

The indictments were voted immediately after Williams had told the story to the grand jury.

SHIP OF STATE MUST HAVE SKILLED CREW, ALSO CAPT.

SAYS HARDING IN GREAT RECEPTION ACCORDED HIM IN WEST VIRGINIA

RAYMOND CLAPPER
(United Press Staff Correspondent.)

Ashland, Ky., Sept. 29.—The ship of state will be sailed with a skilled crew as well as captain, and its sailing orders must originate in the United States, Senator Warren G. Harding declared in a speech here today.

Harding said the government must be the expression of the people not the will of the chief executive.

Today's speech is the last scheduled for this trip.

Harding spoke to an audience that packed two of Wheeling's largest halls last night. His reception in West Virginia outstripped anything thus far in the campaign, according to members of his party.

"When I am elected there is going to be that regard and respect for congress which the constitution contemplates and congress must respect the rights and obligation of the executive," Harding said in his speech here.

"But I mean to do more than coordinate and co-operate with congress. I am going to consult and converse with men and women of America. I would rather trust the great undercurrent of American thoughts and convictions than follow the greatest propagandist program ever inaugurated. I think a president will be safe who takes people into confidence and gives them his confidence."

"I believe most heartily in the chief executive counselling and advising with men and women who are conspicuous in American leadership. I believe the vice-president should be made second citizen of the republic in fact as well as in name."

One Man Dictatorship Ruinous

Parkersburg, W. Va., Sept. 29.—Retorting sharply to criticisms of his "America first" slogan by Governor Cox, Harding declared today that Germany under a policy of Deutschland uber alles rose from insignificance to world power in forty years but was ruined by the arrogance of one man.

"I want to take a lesson from Germany," Harding said. "Let us never have a one man dictatorship."

Harding speaking here today, attacked the administration for unpreparedness and said: "We did not seem to realize that we were being

kept out of war for a campaign purpose in 1916."

Harding Has Narrow Escape

Millwood, W. Va., Sept. 29.—Senator Harding and the entire party had a narrow escape today when his private car jumped the track near Millwood, and bumped over the ties across the entire narrow trestle before the train could be stopped. No one was injured.

The front truck of Harding's car was smashed. The train was going forty miles an hour.

When the front truck of Harding's car broke it apparently was crossing the switch. Railroad employees said the switch was not open. The rear truck of the "Ideal" jumped the track. The car was dragged along the roadbed a hundred feet after it crossed the trestle, crossing a creek.

ORGANIZED LABOR MODERATING DRIVE FOR HIGHER WAGES

PRICE CUTTING THROUGHOUT COUNTRY GIVES THEIR WAGES GREATER BUYING POWER

RALPH COUCH,
(United Press Staff Correspondent.)

Washington, Sept. 29.—Organized labor is beginning to moderate its drive for repeated wage increases, Edward F. Cunningham, of the conciliation bureau of the labor department, said today, probably as a direct result of a country-wide price cutting wave.

"Not more than fifty thousand men are now involved in labor disagreements. Only two cases were referred to the department this week for adjustment. A short time ago we got from seventeen to twenty new cases each week. Most men are working more regularly than at any time since the armistice," said Mr. Cunningham.

"The rank and file of organized labor seems willing to get the result of the price cutting wave. If it should prove a permanent reduction in prices the result of course would be equivalent to higher wages. The workers would be able to buy more commodities and more varieties."

FEDERAL AID TO PREVENT FOREST FIRES

(By United Press)

Albany, N. Y., Sept. 29.—Federal aid to protect forests from fire and arousing public sentiment for conservative interest will be aided by a committee named Tuesday to organize a permanent conservation and safety body.

W. T. Cox, Minnesota state forester, was named on the committee.

The committee will act as a permanent steering body, and will launch at once upon an active campaign to educate the people of the nation in the necessity of protecting forests from fires.

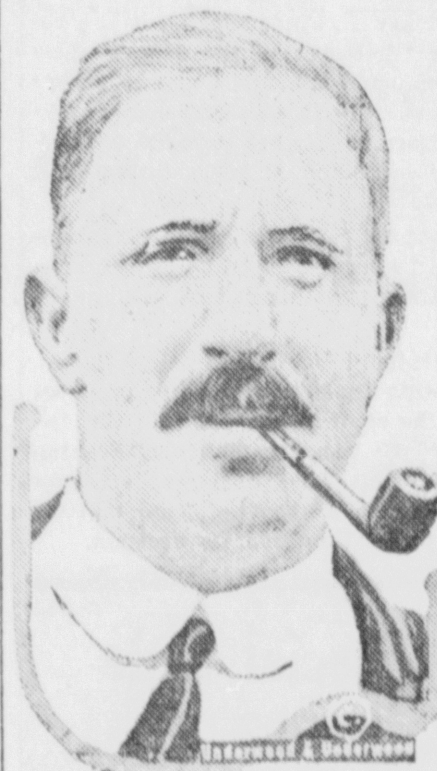

WRANGLER BREAKS BOLSHEVIST FRONT

(United Press)

Copenhagen, Sept. 29.—General Wrangel's anti-bolshevist forces have practically isolated the soviet army in the Caucasus, according to a Helmsing's dispatch to the Berlingski Tidende.

The message said the Wrangel troops had broken the bolshevist front between Veronetsch and Tsaritsin.

PREUS AND HODGSON WILL SPEAK FROM SAME PLATFORM

(United Press)

St. Paul, Sept. 29.—Vice-President Thomas Marshall will speak at Duluth, Mankato and Winona next week, it was announced Tuesday. The first speech will be at Mankato Oct. 7. The next day he will speak at Duluth and Oct. 9 at Winona. He will confer with party leaders in the twin cities.

Next Saturday J. A. O. Preus, republican nominee for governor, and L. C. Hodgson, democratic nominee for governor, will speak from the same platform at the Sherburne county fair at Elk River.

SENATOR NELSON'S SON-IN-LAW GUILTY

(By United Press)

Alexandria, Minn., Sept. 29.—Gustaf Nelson, son-in-law of United States Senator Knute Nelson, is guilty of murdering James Middleton, a farm hand, a jury decided at ten o'clock last night. The case was deliberated six hours.

Nelson scuffled with Middleton on the farm tenanted by John Jacobson following an argument with Jackson regarding wood. Nelson maintained the shot gun he carried was discharged accidentally during the scuffle with Middleton. The case will be appealed.

TEMPERATURE DROP PUTS PEP IN NORTHWEST

(United Press)

St. Paul, Sept. 29.—After basking in the summer sunshine a cold snap put pep into the steps of the northwest today. The temperature up to ninety-one a week ago, was hard to remember. The thermometer recorded forty-three last night. A little snow and sleet fell in the northern part of the state.

A Special Committee Appointed to Conduct Volstead's Campaign

(United Press)

St. Paul, Sept. 29.—A special committee to conduct a campaign for the election of Andrew J. Volstead to congress from the seventh district was named today at a meeting of the republican state central committee executives. The committee will place Volstead's name on the ballot and arrange details of the campaign.

Volstead lost the republican nomination to O. J. Kvale at the primaries, but Kvale was disqualified when found guilty of violation of the corrupt practices act. The supreme court declared a vacancy on the ticket.

CENSUS FIGURES

(United Press)

Washington, Sept. 29.—Population figures for the following counties were announced by the census bureau today:

Hubbard county, Minn., 10,136, an increase of 395, or 3.1 per cent.
McHenry county, N. D., 15,544, a decrease of 2,983, or 11.8 per cent.

AMERICAN LEGION FAVORS EXCLUDING JAP IMMIGRANTS

ALSO CANCELLATION OF GENTLEMEN'S AGREEMENT AS IT WAS CONSTANTLY VIOLATED

(United Press)

Cleveland, Sept. 29.—The American Legion convention today adopted a resolution favoring excluding Japanese immigrants and "picture brides" from the United States, and the cancellation of the "gentlemen's agreement" with Japan in respect to immigration.

The measure as introduced charged that the "gentlemen's agreement" was being constantly violated and that increased numbers of Japanese are crossing the border into the country.

An uproar followed the introduction of the measure. It was sponsored by the Californian and other western delegations, and the delegates from Hawaii.

New York delegates attempted to have the matter put over for another year and were lulled down.

Col. Milton J. Foreman, of Illinois, sprang to his feet with a motion "that the United States immediately prepare to meet the Japanese menace. His motion was lost in the uproar and was not acted upon."

SEIZURE OF BREWERY IS ORDERED BY COURT

(United Press)

St. Paul, Sept. 29.—United States Marshal Joseph Wessel was empowered, under a motion of the court, to seize the stock and manufacturing equipment of the St. Cloud brewery company, the owners of which have been arrested on a charge of selling beer.

The stock at the brewery includes 50 cases of bock beer, 110 cases of root beer, 740 barrels of beer in tanks and 67 kegs of root beer, according to an inventory taken for the collector of internal revenue. J. C. Lenihan, deputy internal revenue collector, has been engaged at the plant since the raid was made early this month.

It is expected that J. H. Nicolin and the other owners of the plant will take advantage of the permission granted by the internal revenue laws to obtain possession of the perishable part of the stock under bond and it is probable that a bond for \$7,000 will be offered.

WOMAN ESCAPES FROM HOSPITAL HANGS HERSELF

(United Press)

Minneapolis, Sept. 29.—Mrs. Emma Johnson, fifty, escaped from the general hospital here early today and some time later her body was found hanging from a tree in the yard at her former home. She had been held for examination as to her mentality.

Middle Age at 35 or 60?

Physician Explains Why Lack Of Iron in the Blood Saps the Strength and Vitality and Often Makes Men and Women Look and Feel Old Before Their Time.

By Dr. Ferdinand King, New York Physician and Medical Author

Signs of old age are plainly to be seen in many a man and woman who ought still to be enjoying the rugged health and activity of the early years of life. Yet often the real cause of their decline is nothing more than lack of iron in the blood and it is surprising how quickly these conditions are frequently corrected once the right kind of iron is supplied.

I am constantly coming across cases in my practice where people not yet 40 show much of the nervousness, lack of energy and general run-down condition which might possibly be expected to come twenty years later in life while others at 60 may still be young in feeling, mentally alert with steady nerves and strong bodies.

Whether we have health and long life is often a question which each one must determine for himself. Signs of old age are largely due to a deposit of waste matter in the blood vessels and cells of the body. Without plenty of strengthening iron the blood is utterly lacking in the power to overcome this slow poisoning process and keep the body strong and healthy. To make up for this deficiency I usually prescribe organic iron like Nuxated Iron which by enriching the blood and creating thousands of new red blood cells helps renew the wasted tissues and build strength and energy to withstand the ravages of time. I know of no more simple means by which a person can find out if his blood needs iron than by making the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous run-down people in two weeks' time in many instances. You can procure Nuxated Iron from your druggist on an absolute guarantee of satisfaction or your money will be refunded.

Has Sold His Home and Car. But Will Not Leave Church and City Until Latter Part of Year

Rev. M. L. Hostager, pastor of the Bethlehem Lutheran church of South Seventh street the past 14 years and now dean of Brainerd pastors, has accepted a call from LaCrosse, Wis. His congregation, upon first hearing of the call, gave him an increase of \$500 salary annually. But the call from LaCrosse became so insistent that the pastor felt he could not neglect the opportunity to serve in a larger field.

Rev. Hostager has sold his home at 717 South Seventh street to Ben Anderson and his car to Martin Torkelson. He will continue with the local church for some time, and will not leave Brainerd with his family until the latter part of the year.

Rev. Hostager has been prominent in many civic movements for the betterment of the community and is a forceful and eloquent speaker who makes a good impression in pulpit and on the platform. He is a good executive and business man and the new church building on South Seventh street is a tribute to his skill as an organizer and director.

Mrs. Hostager has been active in church work and will be missed by a large circle of friends in the church. As a neighbor and friend she was helpful and beloved by all who knew her. It is with sincere regret that Brainerd loses the pastor and his family and best wishes are extended for success and happiness in their new field.

Today's Geography

HOW ANTS CAN HINDER AIRPLANES

Ants have assumed a new role in Africa—that of enemies of aviation. Reports from surveyors of the proposed air route from Rhodesia to Cape town say that ant hills have interfered seriously with the placing of aerodromes.

To understand this phenomenon one must understand how ubiquitous is the ant in South Africa, writes William Morton Wheeler to the National Geographic society. He continues:

"Ants are to be found everywhere, from the arctic regions to the tropics, from timber line on the loftiest mountains to the shifting sands of the dunes and seashores, and from the dampest forests to the driest deserts. Not only do they outnumber in individuals all other terrestrial animals, but their colonies even in very circumscribed localities often defy enumeration."

"One subfamily of the ants, the Dorylinae, embracing the wonderful driver ants of Africa and the legionary ants of the American tropics, are highly carnivorous, and nevertheless succeed in forming immense colonies, often of hundreds of thousands of individuals. This they accomplish by relinquishing the sedentary habits so characteristic of the great majority of ants. They keep moving in long files through the jungles, capturing or killing all the insects they encounter, and even overrunning dwellings, and, in their search for cockroaches and other vermin, driving out the human inhabitants."

"From time to time these strange ants bivouac for the night or for a

few days in some hole in the ground, or under a tree, but soon continue their predatory march. Evidently they are able to remain carnivorous, and at the same time to develop large colonies, only because they are nomadic and can thus draw their food supply from a large area.

"Certain individuals, the 'repletes' of the colony refrain from leaving the

nest and foraging for food and become converted into flagons by distending the crop to such enormous dimensions that the abdomen looks like a transparent bead. In this condition they hang by their claws from the roof of the nest chamber and thenceforth spend all their lives receiving liquid food from the tongues of the foraging ants, storing it in their crops and regurgitating it to hungry individuals when the liquid food supply outside the nest becomes inadequate.

"This is, of course, apt to be the case periodically in dry regions, so that we find the true honey ants only in deserts like those of the southwestern states, northern Mexico, South Africa and central Australia."

TACNA AND ARICA: SIAMESE TWINS OF GEOGRAPHY

Tacna and Arica! The words are fast becoming as inseparable as the Gold Dust Twins, the Dolly Sisters, or Mutt and Jeff.

The regions form a territorial bone of contention among Chile, Peru and Bolivia. The province of Tacna, composed of the department of Tacna and Arica, is shown on maps made in Chile as the northernmost province of that country, and on maps made in Peru as the southernmost province of Peru, bordered on the north by the Rio Sama and on the east by Bolivia. Its broad uplands are rich in nitrate, and on the Bay of Arica, at the terminus of one railroad leading to La Paz and the interior of Bolivia, and of another running to ports to the south, the delightful city of Arica is

situated, giving the possessor of the territory a great advantage in South American affairs from both political and commercial standpoints. Here is ample reason why these two South American republics want it, and why Bolivia hopes that, in the adjustment, she will have an outlet to the sea accorded her.

The trouble over this region arose originally from the fact that, in the days of the early Spanish settlers, the country was so vast that a few hundred square miles more or less made no difference in the affairs of the colony, and when the colonies organized themselves into republics they still were too busy with their internal problems to bother about where their boundaries began and where they ended. This condition was true not only of Peru, Chile and Bolivia, but of most of the other South American republics, as indicated by the numerous boundary questions which have been in dispute during the last decade.

So matters drifted until the middle of the nineteenth century, when guano and nitrate were discovered in this formerly ignored region. The guano alone was then hastily estimated as worth \$20,000,000, not to mention the nitrate. What friends could be expected to remain friendly with such a mountain of dollars between them? Since that time the Peru-Chile-Bolivia story has been one of controversies, treaties, counter-charges and plebiscites never taken.

New England Folklore.

The folklore of New England is not confined to rural communities, nor to the illiterate—not by any manner of means. And it's safe to say that the reader, if a New Englander, will not protest the "any manner of means." Who in Rhode Island does not know that a "cat-nap" is a short doze or that a "whopper" is a big lie? "What are you driving at?" is as staple as baked beans on Sunday morning, and "What are you going to 'tax' me?" is a daily inquiry.—Boston Globe.

IRISH DISORDERS STILL CONTINUE

(United Press)

Dublin, Sept. 29.—Rioting was renewed today in Lisburne, six miles from Belfast. Several houses and a shop were wrecked. The police charged to disperse a mob. A police patrol was ambushed at Dunmague, near Skibberdeer. A sergeant was seriously wounded.

FEAR IRISH VIOLENCE WILL REACH LONDON

WEBB MILLER.

(United Press Staff Correspondent) London, Sept. 29.—Apprehension that violence may reach here from the Irish situation was keener today with the reported frustration of a plot to destroy office buildings in White Hall.

The Irish office at Brixton prison where Terence MacSwiney is starving himself, Downing street and all other places where demonstrations might be expected, were given additional guards. The Irish office was closed and its doors barred with heavy chains.

You Must Believe This.

Perhaps the most remarkable freaks of lightning was that related by John Still, the famous bishop of Wells. A storm broke over Wells cathedral during a service. Afterward the bishop, his wife and many members of the congregation found themselves marked with a cross on various parts of the body. Not a soul was injured by the lightning.

Imitation "Ford" parts are being sold by many mail-order houses, downtown stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. COMMUNICATION

At the meeting Monday night of the Water and Light Board, there were present, besides the Board members, representatives of the jobbing houses handling Hughes and Westinghouse electric ranges, Mr. Dunham of the Brainerd Electric Company, and Mr. Taylor of the Northern Home Furnishing Company. The purpose of these individuals was to ascertain by personal inquiry the attitude of the Board regarding the handling and selling of electric cooking ranges and similar appliances. As there have been many and varied remarks to the effect that a conflict has arisen between the city and local business houses, it is the purpose to set forth briefly herein an explanation of the present situation.

Because electric ranges involve large sums of money and because the present moment is a tense one due to the lack of gas, there may have been a semblance of the Board doing something unusual and unwarranted. But the Board is not doing anything differently today than what the policy and procedure has been since its creation, which was caused by a vote of the people. Therefore, the present situation is not a new one nor one established by any one official or any department of the city. The Board is proceeding under charter provisions.

No jobber gives an exclusive contract to any local dealer, consequently, the Board could at any time obtain any stove desired by any customer. Further, the jobbers have always expressed it to be their preference to deal with central stations and would not refuse to sell the Board any electric appliances that might be desired also jobbers give central stations a greater discount, which, of course, means that the city, for this one reason alone, can make a profit if it sells at a price which is equal to the cost of the same article sold by the jobber to the retailer.

The local dealers and jobbers acknowledged that the Board members were not individually responsible for the present situation, which is working to the disadvantage of the dealers. Both the Brainerd Electric Company and the Northern Home Furnishing Company will discontinue selling stoves and it is only natural that they should as it is wholly to their own interest to do so. They can not afford to sell stoves as does the city, nor should it be expected by citizens that they handle stoves at a loss.

The dealers went into this line honorably and they desire to leave honorably. We have been advised that in some peoples' minds there has arisen a momentary suspicion regarding what many are wont to class with or describe as "profiteering". The Board is convinced and cheerfully makes this statement that in this instance such a charge could not be brought against either the Brainerd Electric Company or the Northern Home Furnishing Company. Obviously as to any article handled there must be a difference between the total cost to the city and the total cost to rent, taxes, and so on, which greatly reduces the margin between cost price and selling price; namely, the profit. The Board has no

AT JAPAN SHRINES

Sights Worth Seeing in the Empire's Temple Cities.

Beautiful Scenery of Nikko and the Flowery Great Yeddo in the Capital Well Repay Visitor for the Excursion.

"Many feet are now treading their way to the shrines in the temple cities of Japan," says the third of a series of bulletins from the National Geographic society on the places which will be visited by members of congress on their trip to the Orient.

"Eager Americans will stroll along the shady streets of Nikko to the tombs of the shoguns and drink in the indescribable beautiful scenery, their lips all the while murmuring the Japanese word kekko (beautiful), which the Japanese say one never learns to pronounce until he has seen the city of Nikko. In Tokyo, called the Flowery Great Yeddo, the capital of the empire, they will see the imperial palace and the remains of the former glory of the shoguns, a family of military governors who were the virtual rulers of Japan for several centuries, and in Kyoto they will probably get a confused, hazy idea of one or two of the 800 Buddhist temples and 80 Shinto shrines.

"Perhaps, too, in the temples of Tokyo a bit of American pocket money will go to a priest for printing a pretty prayer on a slip of paper, which the visitor, in true pilgrim fashion, will press to his forehead and to his breast and then fasten to the temple wall in order that it may be a perpetual petition. But then when there are 30,000 devotees to whom devout Japanese write, a few American pleas will scarcely clog the celestial postal service.

"There will be many native pilgrims on the way to the shrines. During the summer months, when the crops have been taken care of, the village folk, though they have the temples of their own patron deity and the fox god, feel that they must send out a pilgrim or two to the sacred mountains and holy places of Japan to worship in behalf of those who cannot go, and so they provide a fund for his expenses. Nor does the emissary travel in state. Life for him loses most of its perplexities. He is equipped with a cheap white cotton shirt that can be easily washed, tight-fitting trousers and a loose white cotton jacket which he tucks in with a girdle. He wears an enormous broad, stiff straw hat, and on his back he carries a piece of matting which serves him as an umbrella by day and as a bed at night.

"In Nikko, though he does not come especially to visit the tombs of the shoguns, he 'loafs and invites his soul' within the shadow of the two great mausolea of the founder of the line and his grandson, the merciless enemy of Christianity, which stand on the side of the mountain. Up, up, up, he climbs through courtyard and garden, past one splendor after another, until he reaches the beautiful temple and the actual burial place of a line of rulers who usurped the sovereignty of the empire and held it for almost three centuries, making the few years covering the glory of Napoleon and Cromwell insignificant indeed. When the pilgrim reaches the top of the mountain he prays. Then he smokes a pipe or two and leisurely takes up his journey to the next shrine.

"In August the pilgrim rolls off his mat and the visitor from foreign lands climbs out of bed at the crack of dawn to hear the lotus flower bloom, for the buds burst with a pleasing characteristic sound.

"If Nikko is the most beautiful city in Japan, Kyoto can be called the most interesting. Here the feminine visitor finds herself bewildered by the most exquisitely wrought of all the exquisite pottery, cloisonne, bronzes, fans and velvets. After she has bought more than she can comfortably get home with, she probably will want to see a bit of the mikado's palace which covers over 25 acres of ground and is surrounded by a great wall with six gates, or journey out to see the largest lake in Japan, Lake Biwa, and the 1,200-year-old pine tree which stands near it."

Machine Digs Trees at Nursery.

The nursery tree-digger has been devised by Edgar A. Jackson of Cupertino, Cal. With this machine 50,000 trees may easily be dug in a day, using about ten gallons of fuel. The gas-engine is geared to drums attached to cables, which in turn are attached to the cutter device. The gear reduction gives a tremendous pull, and holds the cutting knife with a very large lifter, making the hand pulling of the trees easy. The machine moves from one row to another by its own power.

such expenses and can sell for almost the price billed by the jobber. It is only by selling many stoves that he local dealer could make a substantial profit; selling a few stoves can not be profitable. Charges of unfair profits are without foundation.

Brotherhood Among Men.

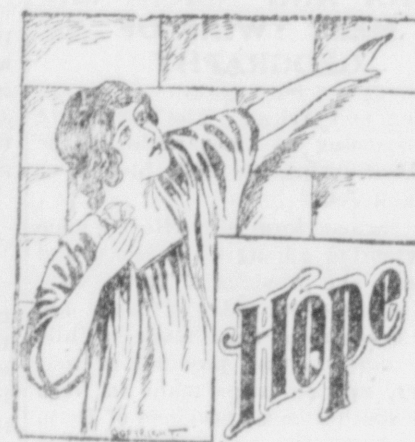

In every period and in every society there exists an understanding of the meaning of life which represents the highest level to which the men of that society have attained—an understanding defining the highest good at which that society aims. The religious perception of our time, in its widest application, is the consciousness that our well-being, both material and spiritual, lies in the growth of brotherhood among all men—in their loving harmony one with another.—Tolstoy.

Good Judgment

After Eating

Giving the Stomach the Alkaline Effect by a Stuart's Dyspepsia Tablet is Worth Remembering

You cannot, as a rule, say in advance that this, that or the other food will cause indigestion. Experience has taught most people that

even mince pie fits snugly at times while at others a glass of milk raises hobs with the stomach.

One good rule to follow is the preventive measure of taking one or two Stuart's Dyspepsia Tablets after meals. You thus avoid gasiness, sour stomach, heartburn and such distresses due to indigestion or dyspepsia. These tablets also help to digest the food by giving the stomach the alkaline effect to offset acidity; they relieve the distress when the mince pie or milk should be more than a match for your digestive power. Get a 60-cent box of Stuart's Dyspepsia Tablets at any drug store and note how nicely they seem to calm the stomach when it feels all upset.

WATER POURED IN RESERVOIR

Huge Reservoir of the City Half Filled by the Pumps and Stands the Testing

NO WATER PUMPED TO TOWER

It is Not Known Definitely When the Latter Test Will be Made, Said City Engineer

The 800,000 gallon reservoir of the city located on the south side has been partially tested and the electric pumps, working at intervals, have pumped in 400,000 gallons. No leaks have shown up.

City Engineer R. T. Campbell stated it was not known when the 300,000 gallon tank of the water tower would be tested. L. P. Wolff of St. Paul, consulting engineer of the water and light board, will be in the city soon on his regular inspection trip.

When the tower is tested, there will be pumping direct to the tower and valves will shut off any flow to other sections. The tower test will not interfere with the regular pumping system of the city. City water at present is very clear, leading some people to believe that spring water from the city wells was being pumped into the mains, which is not the case however.

Riverside Gardens Will Start Marketing Fine Crop of Cabbages in City and Vicinity

THE DANISH HARD HEAD KIND

Duluth Has Already Ordered Several Carloads of Beare's Cabbages, Knowing Excellent Quality

"Sauer Kraut Day" opens this Friday.

The Riverside gardens conducted by Thomas Beare and associate will put its Danish hard headed cabbage on the market and Brainerd people will have a chance to inspect and order the cabbage at the Model Meat Market, where Theodore H. Schaefer has kindly given Mr. Beare permission to put in a cabbage table and conduct a cabbage sale.

The Beare cabbages have gained a wide reputation and are eagerly sought by Duluth and other commission houses. Orders for several carloads have already been received from Duluth and other large cities.

But Mr. Beare feels that Brainerd should have first chance at the cabbages and so the sale starts this Friday for local people.

A bad back makes you gloomy. Can't be happy with continual backache.

The aches and pains of a bad back are frequently due to weak kidneys.

Doan's Kidney Pills are recommended for weak kidneys.

So Brainerd citizens testify.

Mrs. A. Noakes, 313 So. Ninth St., Brainerd, says: "I had been feeling miserable and sick all over for about a year and didn't know what was wrong with me until my kidneys began to show they were disordered. My feet would swell when I went to take off my shoes in the evening. I always had a tired and depressed feeling. I tried different remedies with no relief. I got Doan's Kidney Pills at the Skauke Drug Co. and began using them. After I had taken four boxes, I was cured."

Congressman Schall Well Known to Brainerd People. Having Spoken for Hiram Johnson

Congressman Thomas Schall of the tenth district, Minneapolis, will speak in Brainerd on Monday evening, Oct. 4, at Gardner hall on the political issues of the day.

The congressman is an eloquent speaker and well known to Brainerd people. He spoke in Brainerd for Hiram Johnson, when the latter was a candidacy for the presidency.

A cordial invitation is extended to the ladies to hear Congressman Schall.

MR. AND MRS. J. K. PEARCE

Former Brainerd People Now of Portland, Oregon, Visited by Mrs. Jennie Grewcox and Daughter

In a recent trip to Portland, Oregon, Mrs. Jennie Grewcox and daughter MacBelle visited Mr. and Mrs. J. K. Pearce, former residents of Brainerd.

Mr. and Mrs. Pearce entertained their guests very graciously and in addition to many trips round the city, motored to Hood River, a distance of 65 miles. This Portland Seaside highway, which is of paved concrete is considered one of the most beautiful drives in the U. S. Since taking up their residence in Portland, Mr. and Mrs. Pearce have invested in a number of dwellings, valued approximately at twenty thousand dollars, one pleasant feature being that their home is situated next that of their daughters, Mrs. James Canfield.

Other former residents of Brainerd who entertained Mrs. Grewcox and daughter were Mr. and Mrs. John T. Prater and Mr. and Mrs. R. W. Seelye, Seattle, Wash., also Mrs. Chas. Metcalf who is making her home with her son Charles Metcalf at Hood River.

IRONTON

Ironton, Minn., Sept. 25—The Ironton Rebekah lodge, No. 117, celebrated the 69th anniversary of the founding of their order. A program and supper was given.

The Ironton Women's Community met at the hall and were entertained by Mrs. G. P. Ellingson and Mrs. M. Andersen. There was discussion and plans perfected over the coming Lyceum course.

John Shepherd of Lakeview had his back broken while working on his car. The jacks tipped over and the car came across his back. Pieces of broken vertebrae were removed in the operation following.

Little Virginia Chasen entertained a number of friends on the occasion of her fifth birthday.

Mr. and Mrs. Gug Bye of Taconite are the parents of a baby boy, weight 5 1/2 pounds, born Sept. 17 and who has been named Robert Jordan.

The Ladies Aid of the Presbyterian church will give a harvest home social early in October.

The Altar society of St. Joseph Catholic church gave a card party at the village hall. The proceeds will be used to help furnish the priest's house.

Front wheels of both cars were smashed when the automobile of the Misses Ruth Alberts and Eleanor Miller was run into by a car of Brainerd people. No one was injured.

Ironton ladies visiting in Brainerd were Mrs. Mulvaney, Mrs. Hunt, Mrs. McAlpine.

Mr. and Mrs. D. B. McAlpine and daughters visited in Duluth.

Mr. and Mrs. Briggs have removed to Riverton.

G. A. Murphy has returned from a business trip to Ironwood, Mich.

Some Underwear and Hosiery Bargains

We will have some very unusually good hosiery and underwear bargains in our basement for those who would make there salaries go a long way.

This includes wool and fleeced underwear for women and children and wool and heavy cotton hosiery for women and children. These prices are reduced to a point lower than you will find offered in a regular way during this season.

B. H. S. SPORTS

Monday night there appeared on the gridiron a bunch of old war horses again ready to battle for the old B. H. S. and protect her honors in football. About fifty men turned out and more are expected each night as practice continues. Every man showed up his best and possibilities are good for a fast team. Coach Butler has many good pointers and with his efficient coaching the wheels are turning and a football team emerging from the dust.

A field committee has been appointed consisting of sixteen men with Knute Thoe as chairman. The main duties of the committee will be looking after the field conditions.

There are great possibilities of the opening game being played a week from Saturday. However this is not certain but efforts are being put forth to secure a game with some neighboring high school.

The Athletic Association which was formed a week ago along with the Principal and Superintendent of the schools is doing its utmost to encourage athletics of all kinds especially football and basketball in the school.

TO EVERY READER

There is no pure herb family medicine in the world today that can equal the power and give such grand results in regulating the bowels, stimulating the liver, flushing and cleansing the kidneys, sweetening the stomach or purifying and enriching the blood—than

BULGARIAN BLOOD TEA

Those who suffer with stomach, liver, kidney, rheumatism or blood troubles will find Bulgarian Blood Tea the best medicine to relieve and correct these ailments. It is wonderful how quick you will begin to pick up and be your old-time self again.

During the 1918-19-20 influenza epidemic Bulgarian Blood Tea was used by countless thousands of sufferers with marvelous success and millions of people took it steaming hot to prevent and ward off the disease.

As a general first aid family medicine it has no equal and every person should have a box constantly on hand for any emergency—to kill colds, allay fevers and guard against influenza pneumonia or other serious sickness.

And all mothers and fathers of families should apply at once to their drug list or grocer for a trial box of Bulgarian Blood Tea.

The X-Ray and Chiropractic

The Chiropractor spends month after month for three years perfecting the sense of touch in his fingers so that he may correctly ascertain the location of each spinal segment in the patient's back. Even with his adeptness at locating these misaligned or subluxated vertebrae he is sometimes baffled; and to prove conclusively to himself that he is absolutely correct in his findings, he resorts to the X-ray. By taking a radiographic picture of the patient's spine, he is not only enabled to actually see the exact conditions as they exist, but he is also able to show the patient that condition.

The Reduced Cost of Tire Mileage for Your Small Car

Do you realize that Goodyear Tires are priced no higher today than in 1910 and that their mileage actually costs less than it did a decade ago?

During this period Goodyear has been able steadily to increase the amount of mileage built into its tires and, consequently, the cost of Goodyear mileage has actually declined.

In no part of the Goodyear line has this decline been more marked than in the present 30 x 3, 30 x 3 1/2 and 31 x 4-inch sizes of Goodyear Tires, made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for them—get the unusual value contained in their construction and delivered in their mileage.

PLAN HOME FOR RECORDS OF U. S.

ARCHIVES BUILDING IS TO BE ERECTED ON TWO BLOCKS ON THE MALL.

CONGRESS PROVIDED FOR IT

New Structure Will Make Available Much Space in Government Departments and Save Large Sums Now Paid in Rentals.

By JAMES P. HORNADAY.

Washington.—The United States is probably the most careless government on earth so far as its official records are concerned. A great fire here at the national capital might—probably would—destroy practically all these records. Of course the government would still live, but such a loss would cause endless embarrassment.

But a better day is dawning. An archives building is to be provided. Congress at last session made provision for it. Announcement has just been made that the government has obtained options on two full blocks fronting the Mall, two blocks from the treasury.

The new building will contain about 8,000,000 square feet and will house all government records. At the beginning the building will not present a very beautiful appearance, because it has been decided to leave the outside decorations and finish until the price of materials falls. The main effort will be to complete a building that will be adequate to house the government records and keep them safe from fire and the weather.

Will Save Much Money.

The completion of the archives building will release a great deal of space in the government departments which is now used for dead files, and will mean that much more space will be available to clerical help. With the additional space it is thought that the government will discontinue the renting of private buildings for government work and thus save many hundreds of thousands of dollars a year.

It is pointed out that one of the greatest examples of an archives building is shown in the land office building, which is now about 90 per cent used for files of the government. This building, it is said, is one of the best office buildings in the city and cost about a million dollars to build.

The archives building is the beginning of the beautification of the Mall, which was started by the government several years ago. Following the starting of the archives building, it is probable that the public buildings commission will recommend to congress this fall a program for government buildings in Washington that will be in keeping with the beauty and utility of the government's aim and the plans of the fine arts commission.

The government now is paying about \$500,000 less a year for the rental of private quarters for government use than it was when the public buildings commission was authorized, it is said. The commission was given an appropriation of \$10,000 when it began work and to date has expended less than half of it.

The work of the commission in housing the government bureaus has progressed so favorably during the existence of that body and the lessening of work incident to the war is such, that many of the temporary buildings are to be torn down soon.

Development of the Mall.

It has been announced that Corcoran courts, the council of national defense building and Santa court, in the state, war and navy department building, will be demolished soon. A new building that will be a distinct addition to the Mall is nearing completion. It is the building in which the works of art owned by the government are to be housed. These valuable works of art are now either stored or are taken care of in the national museum. It is hoped to be able to open this National Gallery of Art yet this fall. The public building commission long ago approved the plans of the department of agriculture for a group of buildings on the south side of the Mall for the use of this department. Only two of these buildings have yet been erected, and the secretary of agriculture and his immediate force continue to occupy the old brick building which has been the headquarters of the department ever since there was such a department. At the coming session of congress an effort will be made to get money to put up another wing of the agricultural group.

It is generally understood that when the several departments empty their valuable records into the new archives building the general building scheme for the departments will be overhauled. Under that scheme as it now exists on paper, the state, the navy and the war departments are to be taken care of in separate buildings, and the old war, state and navy building used for what might be called incidental government purposes. The building commission now seems to believe that it will be possible to do with one less building. But this will depend, of course, on how much room is made in the various departments by the removal of the old records.

A Doubt.

"Isn't running for office a contagious disease?"
"I don't know. It isn't always catching."

He Made Eugenie Weep.

An old singer living in England, M. L. Albani Gye, recalls an incident which indicates how heavily the late Empress Eugenie bore her many sorrows.

"Many years ago I used to take my holiday on Deeside," he writes the Daily Telegraph, "and once at least every season was called to Balmoral to sing before Queen Victoria. On one of these occasions the empress, who was on a visit at the castle, came with the queen to hear me. I believe that she had not heard any music since the death of the emperor, and I had scarcely finished my first song when she burst out crying. The queen, on seeing this, began to cry also, and I, too, from sympathy, I presume, with the two great ladies, could hardly restrain my tears. I, however, very soon recovered my composure and was able to continue my work."

Protect Your Child and Others

The beginning of school brings coughs and colds to many children. School doctors know one coughing sneezing, snuffling child can spread infection. At the first sign of a cold it is well to give a child a dose of Foley's Honey and Tar Compound, that safe, reliable cough medicine.

Contains no opiates. H. P. Dunn, druggist.

A Real Science.

A giant riveting machine of 575,000 pounds pressure can be so regulated as to crack the shell of an egg without crushing it.

First English Coin.

It is a common error to suppose that the first English coin was made of copper. It was made of gold, about A. D. 460, and is believed to have been struck in celebration of the victory of Scan, the overlord of the ten provisional chiefs in southern Britain, over the Saxon invaders.

AN EXAMPLE OF DEMOCRATIC ADMINISTRATION "EFFICIENCY"

The picture above shows the condition of a part of the American Motor Park at Coblenz during the recent Spring floods on the Rhine. This park contained all types of cars and motor trucks. When the Army of Occupation was reduced in numbers the greater part of its motor equipment was concentrated at Coblenz. It was parked on some vacant flat land close to the Rhine in spite of the well known fact that practically every Spring this entire tract was flooded. The result is pictured above.

The sale of these cars had been practically completed to certain English interests. After the flood a recovery was asked of the sale of this motor equipment and naturally, the price which the purchaser was willing to pay, after its prolonged bath was very much reduced. This is another example of the "efficient" way in which the property used by Uncle Sam in the war has been cashed in for the benefit of the tax

MacSwiney Unchanged 48th Day of Hunger Strike

(By United Press)

London, Sept. 29.—Lord Mayor MacSwiney, of Cork, was reported in an unchanged condition today, the forty-eighth day of his hunger strike.

The condition of the eleven hunger strikers in Cork now on the fifty-first day of hunger striking, aroused keen interest of the medical profession. The government has installed a medical staff under the direction of Dr. Pearson, who was instructed to provide emergency equipment. Heroic measures will be taken to save the hunger strikers lives should they decide to give up their fast.
